Cultivating Young Minds with STE(A)M

Week 1

We have completed our first week of Summer School. The children had a blast, as did we!

Every Friday we will be sending home a newsletter with your oldest child. The newsletter will highlight what we did for the week; we will also have the “Spotlight” on one or two classes, so that you can see what your student is working on, and any other important information. If you would like the newsletter emailed to you, email Elizabeth Trevino at etrevino@sbcsc.k12.in.us and she will send it to you electronically.

Your child is probably coming home and telling you all the exciting technology that we are using in our classes. Here is the list:

- Ollie
- GoPro
- Sphero
- Makerbot
- Drone
- iPad

We are excited to have each of you at our summer school.

Families of Preschool and Kindergarten Students, please send in a change of clothing. We will keep it here in the event of any accidents!

Take Note

The office is open every day, Monday – Friday from 7:30am – 4:15pm. We ask that you enter at door #7, which is off of Fellows Street. If you are coming to our building, please try to give us a call so that we can have someone at the door to greet you. Unfortunately, we do not have access to the buzzer, so we won't hear you buzz in.

Our office room number is 111. The phone number is 574-231-5848.

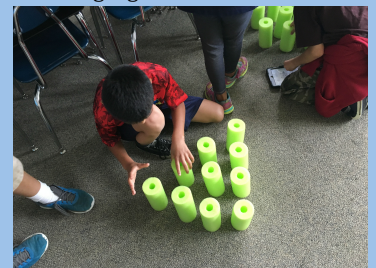

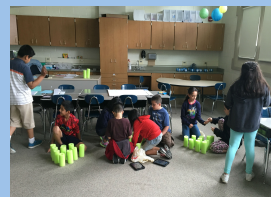

Important Dates:

- ◇ June 26, MRSC Picnic at Monroe Primary Center, 12pm-4pm
- ◇ June 29, Eye Screenings
- ◇ July 1- Field Trip, Chicago, IL

Classroom Spotlight

4th graders used the ollies this week and played a game of bowling. They were able to use addition and subtraction to solve the real-world problem of keeping score during a game.

Ollie

Drone

Sphero

GoPro

MakerBot

iPad Mini
